

# Giving Application

Faith Technologies is proud to be considered for many sponsorship, donation and community involvement opportunities each year. Although we recognize that there are many worthy causes, we have chosen five focus areas to maximize our impact. Through associations with our local communities and fellow business partners, we are proud to support giving in the following ways:

## GIVING PRIORITIES *Giving should support a non profit 501(c)3 organization that:*

- ***Advocates for the furthering of education and skills related to our industry***
- ***Promotes health and wellness for our associates and communities***
- ***Contributes to the sustainability and conservation of our environmental assets***
- ***Supports the well-being of military veterans***
- ***Prevents poverty through innovative social programs***

\*If your request falls within our Giving Priorities, we ask that you please fill out this request form and allow up to two months for processing. While we understand that each opportunity is for a very noble cause, we traditionally limit or decline giving that falls outside of these parameters, unless personally sponsored by an executive of the organization.

Once a response is provided, it may take an additional two to four weeks for the organization to receive monies, logos, ads or other needed items. For larger and more involved opportunities, more lead time may be required.
